INFO. [REDACTED]

SUBJECT Rocket Instruments Produced at Bleicherode;  
No Rockets Fired at Peenemünde

DIST. 13 December 1946

25X1A6a

PAGES  
SUPPLEMENT

ORIGIN [REDACTED]

25X1X6

1. One complete set of instruments for a V-2 rocket is delivered daily by the Rabe Institute at Bleicherode, which has increased its number of workmen from 300 to 700 since April 1946. The instruments in question include "Kreiselgeräte" (gyroscopic equipment), "Mischgeräte" (amplifiers used in connection with the "Kreiselgeräte"), and "Viktorigeräte" (correcting device of the built-in aim-corrector in rocket projectiles for use by the ground staff).
2. During August and September 1946, additional accommodation has been requisitioned by the Soviets at Bleicherode.
3. An informant who has lived permanently at Zinnowitz, 5 km. from Peenemünde, has heard no firing of rockets at all; he claims it would be impossible not to hear at this distance if firing had taken place.
